

Brand Launch Tile

F-P-CT11-4-4 | Brand Launch Tile

Name _____

Date _____

Choose one fictional client. Build a mini style tile and a 1080 x 1080 launch graphic. An A4 adaptation and original symbol are extension pathways.

Assignment duration: three 70-minute classes. Two-class option: combine the final test, revision and submission audit with Class B.

Three-class sprint

Class A · Decode and direct	Choose a client, identify audience and message, repair the weak-flyer principles, then complete the palette and type hierarchy on the style tile.
Class B · Build the message	Create the 1080 × 1080 launch graphic with an editable image, clear hierarchy, restrained mark and consistent brand system.
Class C · Test and deliver	Run a silent five-second audience test, revise the clearest mismatch, confirm sRGB/size and submit the rationale plus process evidence.

Required evidence

1. Layered PSD with named type, image, colour and mark layers
2. Mini style tile: four-colour palette, type pair and simple wordmark
3. 1080 x 1080 PNG
4. One progress screenshot and source log
5. Three-sentence design rationale

Foundation checkpoints

Day 1 A message needs an order	A partner identifies the headline, key detail and action in the intended order within five seconds.
Day 2 Audience becomes colour	Each colour has a job; body text meets the contrast target; the palette can be explained using the audience and brief adjectives.
Day 3 Typography gives the brand a voice	A peer can identify the client and read the required line without explanation; the style tile shows repeatable Headline and Detail roles.

Day 4 Images and words share one system	The message remains readable at phone size; image, type and mark have separate editable roles; no essential text touches the edge.
Day 5 Test, revise and deliver	The intended message and mood appear in at least two peer responses; all required files open; the PSD remains layered.

Production defence

Name your strongest decision, one workflow safeguard, one revision after feedback and one technique you can demonstrate live:

Submission audit

- ☐ Layered PSD with named type, image, colour and mark layers
- ☐ Mini style tile: four-colour palette, type pair and simple wordmark
- ☐ 1080 x 1080 PNG
- ☐ One progress screenshot and source log
- ☐ Three-sentence design rationale

Teacher confirms achievement. Retain the editable/process evidence with the final product.
